

I absolutely think that weakening the Do Not Call Regulations would be a terrible mistake and a violoation of MY PRIVACY!!! I am a working woman by day, and a dedicated mother of an infant by night. When I get home the last thing I want to do is be HARRASSED by a telemarketer or surveyor. When I am in my home, my place to relax and forget about the stressors of the day, I don't want to be rudely interrupted by ANY unwelcomed phone calls. Particularly when I am trying to spend every precious moment with my daughter I didn't get to see all day!! I urge you, please DO NOT lessen the Telephone Consumer Protection Act.

Thank you,

Debora Eckert
